

## SOLVENTS-20

### CHARACTERISTICS

Hose manufactured in a continuous process, with interior of conductive black EPDM rubber and exterior of green EPDM which is resistant to abrasion and weather. It has an intertwined textile reinforcement of high tenacity.

### APPLICATIONS

Ideal hose for applications of industrial maintenance with hot water, paint, varnishes, ketones, acidified water, low concentration acids, saline solutions, alcohols and gases.

### TEMPERATURES

From -40°C to +100°C.
