

CORROSIVE EPDM

CHARACTERISTICS

Hose with internal layer of black EPDM rubber which is resistant to abrasion, weather and ozone. It is made of EPDM rubber with textile reinforcement of high tenacity embedded with steel wire.

APPLICATIONS

Ideal hose for the suction and pumping of chemical products at 10 bar, recommended for conduit of bases, acids of low and medium concentration, alkali and ketones.

TEMPERATURES

From +70°C to +100°C.
