

BLACKGARDEN

Hoses for gardening

CHARACTERISTICS

High quality hose made by extrusion of vinyl compounds with an outer black and orange anti-twist layer and inside black layer for food use. Reinforced with a polyester mesh in order to provide it with a resistance to breakage from stretching and to withstand substantial working pressures. Non-toxic, anti-algae and suitable for food use. Minimal risk of constriction, yet very flexible and easy to use: no twist and no kink. Ca/Pb/Ba free. Resistant to environmental agents and various chemical products.

APPLICATIONS

Ideal hose for irrigation of gardening, horticulture, floriculture and applications of high requirement as well as in extreme conditions.

TEMPERATURES

From -10°C to +60°C.

ø Interior mm	ø Interior inches	Weight g/m	Work pressure bar	Burst pressure bar	Roll m	Code
