

SKYHOSE

Hoses for gardening

CHARACTERISTICS

Five layer anti-torsion hose, outer PVC layer very manageable, with an inserted tensor and a specially formulated latex that provides it with great flexibility. Reinforced with a polyester knit mesh covering that prevents torsion and folding during use. Non-toxic and apt for food use. Ca/Pb/Ba free. Anti-algae, anti-UV and resistant to atmospheric agents and chemical products.

APPLICATIONS

Ideal hose for high maintenance gardening irrigation, horticulture and floriculture. Domestic installations and transport of water in general. Transport of liquid foods, excluding those with fatty contents.

TEMPERATURES

From -10°C to +60°C.

ø Interior mm	ø Interior inches	Weight g/m	Work pressure bar	Burst pressure bar	Code
