

SUPERVINIL RÚSTICA

Hoses for gardening

CHARACTERISTICS

Bone-colored single layer hose for gardens with a estriated exterior surface made of PVC. Special rubber-feel formulation and resistant to low temperatures, bending and twisting. Difficult to constrict, highly flexible and easy-to-handle, difficult to break when stretched. Non-toxic but unsuitable to use with food.

APPLICATIONS

Ideal hose for rural areas with low temperatures. Farms and livestock sites in general.

TEMPERATURES

From -20°C to +60°C.
