

PUMPING ABRASIVE FOOD PRODUCTS

CHARACTERISTICS

Hose constructed around a mandrel with a white food quality NR rubber interior and is resistant to abrasion. The outer covering is NR rubber which is abrasion and weather-resistant. It has a textile braid of high tenacity intertwined inside.

APPLICATIONS

Ideal hose for pumping and unloading granulated or powdery food products such as flours, sugars, cereals or PVC pellets. High conductivity, suitable for environments and ATEX areas according to official report DEKRA 16EXAM11132 BVS-bk. It complies with FDA food standards and 1935/2004 and 2023/2006 European regulations.

TEMPERATURES

From -40°C to +70°C (Sterilization peaks of +100°C, max 30 min.)
