

EPDM 10 BAR 120°C

Hoses for liquids

CHARACTERISTICS

Black EPDM rubber hose manufactured in continuous and reinforced with synthetic intertwined textile braid. The exterior layer is made of EPDM ozone and abrasion resistant.

APPLICATIONS

Liquid hose ideal for pumping of hot water and non-corrosive cooling fluids at 10 bar. Suitable for Adblue and antifreeze.

TEMPERATURES

From -30°C to +120°C.
