

HOSE EN-854 2TE

Low pressure hydraulic hoses

CHARACTERISTICS

Hose with interior layer of black synthetic rubber which is resistant to oils and exterior layer of synthetic rubber which is resistant to oil, abrasion and the weather. It is also reinforced with textile mesh.

APPLICATIONS

Ideal hose for conduit of hydraulic fluids, mineral oils, hydrocarbons, etc. Complies with EN854 standard.

TEMPERATURES

From -40°C to +100°C, up to +125°C in discontinuous use.
