

MILK SEMI-CORRUGATED BUTYL

CHARACTERISTICS

Hose constructed around a mandrel with an interior of white non-toxic butyl rubber and exterior of blue semi-corrugated food quality rubber which is abrasion resistant. Intertwined textile reinforcement of high tenacity and double steel spiral.

APPLICATIONS

Ideal hose for suction and pumping of multiple food fluids such as wine, beer, mineral water, high alcohol content drinks (max. 92%), fruit juices, milk and derivatives. Complies with FDA and BFR food standards. Free of phthalates.

TEMPERATURES

From -20°C to +100°C. Steam wash at 130°C during 30 min. Maximum peaks of 150°C.
