

SANY BOAT

CHARACTERISTICS

Especially flexible hose manufactured on a mandrel with a smooth interior of non-stick blue rubber, odorless and resistant to the formation of bacterial flora. The exterior is made of white rubber with a vanilla aroma, resistant to aging, weathering and sea water. Intertwined textile reinforcement of high tenacity and steel spiral. Compliant European food standards, FDA and ISO 8099:2000 par 5,6.1.10 and 6,4.

APPLICATIONS

Ideal hose for the connection of drains in biological toilets and bilge pumps in pleasure boats.

TEMPERATURES

From -30°C to +100°C
